BRAND TRANSFORMATION PROGRAM
FOR IT SERVICES LEADERS

AI is changing what clients expect.

Your positioning and GTM must change with it.

A three-month program* for small and mid-sized IT services companies.

"Where can I find a vendor who understands my requirements?"

"Where are the AI cost savings?"

"Why should we choose you over your competitors?"

"Can you commit to an outcome?"

THE CLIENT CONVERSATION IS CHANGING.

Ready for a sharper focus?

For founders and CEOs of small and mid-sized IT services firms ready to specialise and move beyond generic positioning.

Bring your team with you

Align leadership, sales, and delivery around the new direction. Turn the focus into shared priorities, relevant offerings, and a consistent customer story.

Turn your strengths into a focused growth proposition

We help define your **positioning strategy** around an **industry, business problem, or technical capability** where you have a credible right to win.

Then shape focused offerings, relevant pricing and engagement models, and a **GTM strategy** your team can take to customers and refine through buyer conversations.

CLIENT EXAMPLE | PUNE-HEADQUARTERED IT SERVICES COMPANY

THE CHALLENGES

- Five flat quarters.
- Positioning no longer connected with a changing market.
- People and process changes had not restored growth.

HOW WE HELPED

- Built a new brand identity using emotional branding principles.
- Grew top-of-funnel lead volume by **25%.**
- Improved SQL-to-close conversion by **63%.**

38%
higher ARR
in the first year
after the rebuild

WHAT YOU TAKE FORWARD

A clear market focus, defined offerings, relevant engagement models, a compelling brand story, a focused GTM strategy and channel mix, website content, and sales enablement documents.
